Who Are We And What We Do For You?

1Path Cloud PBX is an easy-to-use cloud-based unified communications service that helps employees to be more productive and collaborative with a full-featured phone system, combined with audio/video/content sharing, conferencing, and file sharing capabilities.

Whether in the office or remote, 1Path Cloud PBX seamlessly integrates all your communication tools – desktop phones, mobile phones, and computers – into one manageable solution oriented around your employee's needs and workstyles.

Cloud PBX Communication By 1Path

Take your business to the next level with fully integrated unified communications.

1PATH

SCALABLE ONE-STOP-SHOP

1Path Cloud PBX comes with integrated web fax, call center, and web collaboration, meaning no add-ons required. Plus, it's easy to add users and sites without needing to purchase additional infrastructure.

WORK FROM HOME SOLUTIONS

Work from Home solutions can be deployed in 2-3 days, with full deployment only taking 30 days. This allows the client to migrate quickly and efficiently with little down time.

HIGHLY RELIABLE AND SECURE

99.999% SLA with Disaster Failover and Recovery built in—no need to design costly solutions that may never be used! Clients can be sure that once their UC solution has been implemented, it will run smoothly.

AUDIO VISUAL CAPABILITIES

Video conferencing and screensharing make it possible for clients' workforces to interact remotely. This cuts down on travel time and costs, allowing them to stay connected, updated, and productive.
